

Ronald McDonald House Charities® of Greater Las Vegas Pop Tab Program

The little, seemingly insignificant tab you pull to open your aluminum cans helps the Ronald McDonald House® provide a safe and comfortable place they can call "home" while their children recover in nearby hospitals.

The Pop Tab program is an environmentally smart, community friendly program which focuses on separating the pull tab from aluminum beverage cans. The pop tabs are recycled and proceeds go directly to families in need who are staying at the House.

Anyone and everyone can collect pop tabs! It's easy, fun, and a great project for schools and community groups.

- 1.) Pull the tab off any **aluminum can**.
 - a. (Pet food and soup cans are not made from aluminum & can create issues in the recycling process.)
 - b. To help identify non-aluminum tabs, run a magnet through the pop tabs. Any that stick are not aluminum.
- 2.) Collect the tabs.
- 3.) Drop the tabs off or mail them to the Ronald McDonald House or take them to your local recycling center and mail the check to RMHC.
